

Important information for people arriving from Ukraine with animal pets (dogs, cats, ferrets)

Pets from Ukraine arriving in Lithuania are accepted without microchips, including those not vaccinated against rabies, without proper veterinary documentation or rabies antibody titre.

Please indicate the following in your e-mail:

- Your first and last name
- Your phone, e-mail address
- The address where you are staying

The details of your pet (if known):

1. Species of the pet
2. Marking (microchip) number
3. Date of rabies vaccination

➡ The changes to the entry of pet animals into the EU apply exclusively to Ukrainian nationals and not to legal persons, such as sellers or breeders. The procedure for the commercial entry of pets into the EU at the moment remains unchanged.

➡ If you are planning to travel to another country, please apply to the competent authorities of that country or contact us: ukrainepets@vmvt.lt.
