**Audrius KLISHONIS**

*Dear Mr. Audrius!*

I express my respect to your community and appeal to you for help in this difficult time for our country!

An agreement on cooperation and brotherhood was signed between the community of Svatovo, Luhansk region, and your community. In connection with the unleashing of a bloody war by the Russian Federation, from the first days of March our city was occupied by enemy troops.

Thanks to the victorious actions of the Armed Forces of Ukraine, heroism and selflessness of our warriors, the actions on de-occupation of the Luhansk region are currently underway. Now the fighting is taking place near our city. The enemy is insidiously and treacherously destroying the infrastructure in the community, housing, taking away property and killing civilians. There is currently no access to the territories of the community, so it is impossible to predict the scale of destruction.

Svatove city military administration is conducting preparatory actions that will allow it to immediately begin restoration work in the community and establish life, as soon as the de-occupation actions are completed. In the framework of the partnership agreement, in support of fraternal relations between our communities, I am forced to appeal to you with a request to consider providing assistance in financial or other form (construction materials, essential goods, humanitarian food packages, hygiene products, office equipment, vehicles, etc.) for the restoration and functioning of the community's infrastructure, ensuring living conditions for civilians after the active phase of hostilities. We will be grateful for any support from your side.

Please inform me of any results of consideration of this appeal by email: [svatovemva@gmail.com](mailto:svatovemva@gmail.com) or tel. +38(099)353-19-78.

Regards

The head of Svatovo  
city military administration

**Oleksandr MITKEVYCH**
